***“We will not rest until the whole of the world has been entertained.”***

What better way to elevate the senses this winter than by enjoying a display of spectacular human ability. Acrobats and aerialists, contortionists and clowns, magicians and musicians, puppeteers and pyrotechnics, the Wanderlust Circus combines vintage elegance with modern flare to create a 21st century spectacle worthy of the Old World. The ways of the Circus are older than the nightclubs, older than the banks, older than the cities. These most ancient of performance traditions have always existed just slightly to the left of the Mundane World. With one foot planted in the Circus World and the other walking the Gypsy Trail, the Wanderlust Circus is an abstract adventure through the jungles of today's performance art culture.

Wanderlust features a family of world class performers including veterans of Teatro Zinzanni, The Flying Karamazov Brothers, The San Francisco Circus Arts Center, Big Apple Circus, and more. Roaming, with a purpose, the endless road in search of Beauty, they follow their dreams for a better reality to the Winthrop Barn on Saturday, February 20 at 7pm. It's one heck of a show.
